Features	IDEAL Noalox Anti-Oxidant compound improves efficiency and service life of aluminum electrical applications. Suspended zinc particles penetrate and cut aluminum oxide, while carrier material excludes air to minimize further oxidation. Provides additional inner-strand and inner-conductor current paths for improved conductivity and cooler connections. For use with pressure-type wire connectors including lugs, taps, service entrances and split-bolts. It is used with all types of pressure-type wire connectors.
Special Features	Anti-oxidant and anti-seizing compound improves efficiency and service life of aluminum-to-aluminum and aluminum-to-copper electrical connections; Suspended zinc particles penetrate and cut aluminum oxide; Provides additional interstrand and inter-conductor current paths for improved conductivity and cooler connections; Carrier material excludes air to prevent further oxidation; Reduces galling and seizing and promotes good ground continuity on aluminum conduit joints; Improves service life of aluminum ele
