## **PRE-formance**

Giving you the convenience of a pre-fabricated product - plus the flexibility to accommodate job site requirements

## **PRE-formance**

# Giving you the convenience of a pre-fabricated product - plus the flexibility to accommodate job site requirements.

Contractors are continually looking for ways to improve job site efficiency and properly align skilled resources to meet tight commercial construction project deadlines. PRE-formance<sup>™</sup> delivers the pre-engineered and pre-assembled combination of mounting method, outlet box, plaster ring, devices and leads to simplify branch wiring installation.

## PRE-formance pre-fabricated products delivers:

- The ideal solution for commercial buildings with repetitive installations such as hotels, condominium, commercial and retail offices, hospitals and apartments
- Lower total cost of ownership
- Improved material handling and job site safety
- Flexibility to allow skill set allocation to match job requirements
- Elimination of job site material "piles" and inefficient searching for pieces and parts at the job site
- Reduction of overages and scrap, including expensive wire and cable
- Direct labor savings over traditional "stick-build" wiring methods for improved job site efficiency

## **PRE-formance**

Flexible prefabricated branch wiring assemblies available in three comprehensive categories to suit customer project requirements.

- Available with the most popular drawn and welded boxes with ground screw and pigtail lead already installed
- Patented Uni-Mount<sup>™</sup> cover combines plaster ring and mounting method
- Standard pre-fabricated assemblies with mounting brackets, boxes, mud rings, ground screw and pigtail leads
- Most popular configurations available from stock

- Cafeteria style selection of Eaton's Crouse-Hinds extensive line of mounting brackets, boxes, plaster rings, wiring devices, and other associated branch wiring accessories
- Assembled-to-order pre-fabricated products for both AC/MC and EMT applications
- Available with:
  - Wiring devices with pigtail leads and push-in connectors
- AC/MC or EMT connectors installed
- Cable whips attached per customer specification
- Assembled from stock components to meet tight job requirements

### 

- The most complete turn-key solution for commercial construction projects. The process begins with your architectural and electrical engineering drawings and delivers a total pre-fabricated branch wiring system: custom produced, labeled, packaged by room and floor, and delivered to your exact location
- The ideal solution for commercial buildings with repetitive installations such as hotels, condominium, commercial and retail offices, hospitals and apartments
- Job-specific customized drawings and labels simplify material handling and speeds installation
- Dedicated project management and engineering expertise through every step of the project
- Innovative PRE-formance products are designed by contractors for contractors and provide ease of wiring and job site flexibility to get the job done right and on-time!
- Includes flexible products designed with pre-fabrication, productivity, safety and job site speed in mind
- Contractors can realize 30 to 40% labor savings over traditional "stick-build" wiring methods for greatly improved job site efficiency

## Boxes with pre-installed ground screw and pigtail

Eaton's Crouse-Hinds boxes with pre-installed ground screw and pigtail provide a simple, readily available way to meet grounding and bonding requirements for metal boxes. Includes the 4" or 4-11/16" square box with ground screw and lead installed\*.

## **Uni-Mount Assemblies**

Eaton's Crouse-Hinds combines the patented Uni-Mount cover (mounting method and mud ring, all in one) to a 4" square box with ground screw and lead installed to simplify ordering, receiving and improve job site speed.

### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-23156

### **Pre-fabricated Box Features:**

 $(U_L)$ 

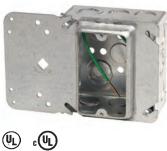

- Uni-Mount provides a secure box support and features a built-in plaster ring
- Can be field assembled with outlet box for power applications or used without a box for low voltage applications
- Pre-fabricated Uni-Mount is available with most popular outlet boxes with a choice of 1/2", 5/8" or 3/4" raised cover and includes ground screw and lead
- · Rigid bracket design eliminates the need for far side support
- Guide tabs ensure alignment on studs

#### **Uni-Mount Features:**

- Uni-Mount combines the features of a mounting device plate with those of a box support, giving you one universal plate for all of your needs. Specifically designed for use with metal or wood studs.
- · New and improved Uni-Mount incorporates four small holes on the left side (support side) of the bracket. These holes allow for the attachment of box mounting brackets to allow for use of both sides of the stud. The holes are strategically located to accept the B-Line BB423 bracket. Additionally, the viewing hole has been significantly enlarged (and is now diamond shaped) to make it even easier to find mark lines on the stud.

## Uni-Mount Assemblies with Wiring Devices

PRE-formance Uni-Mount Assemblies - all catalog numbers contain a patented Uni-Mount cover (TP31000-37000), 4" square back box, an 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

## Uni-Mount assemblies with wiring devices

• All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details.

### Commonly ordered catalog examples are listed below

• See Uni-Mount assembly catalog numbering system at the end of the Uni-Mount assembly pages for more information on how to construct catalog numbers for almost any customer application.

**GFCI** Receptacles

## **Uni-Mount Assemblies with Wiring Devices**

PRE-formance Uni-Mount Assemblies - all catalog numbers contain a patented Uni-Mount cover (TP31000-37000), 4" square back box, 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

#### Commonly ordered catalog examples are listed below

• See Uni-Mount assembly catalog numbering system at the end of the Uni-Mount assembly pages for more information on how to construct catalog numbers for almost any customer application.

• Other box types, device colors, mud ring depths, brackets and assembly configurations are available. Consult factory for details.

To change the color of device from ivory (as shown) to white, substitute V (lvory) with W (White). For ex. TP314D C20DV becomes TP314D C20DW.
 All receptacles are shipped standard ground up. Add suffix DN for ground down.

All assemblies shipped standard with metal device protect plates

· Pre-installed connectors available on all assembly types. Consult factory for details.

## **PRE-formance Catalog Numbering System**

## For Uni-Mount Assemblies with Wiring Devices

| Standard Eaton's Wiring Devices used                                      | In PRE-formance Assemblies  |   |
|---|---|---|
| Eaton's Crouse-Hinds Wiring Device<br>Nomenclature (without color suffix) | Eaton's Wiring Device Catalog Number<br>used (shown without color suffix) | Description                             |
| C20D  | CR20  | Commercial Grade 20A Duplex Receptacle  |
| I20D  | 5362  | Industrial Grade 20A Duplex Receptacle  |
| H20D  | 8300  | Hospital Grade 20A Duplex Receptacle    |
| S20G  | VGF20   | Specification Grade 20A GFCI Receptacle |
| H20G  | VGFH20  | Hospital Grade 20A GFCI Receptacle      |
| C20SP   | CS120   | Commercial Grade 20A Single Pole Switch |
| 120SP   | AH1221  | Industrial Grade 20A Single Pole Switch |
| C203W   | CS320   | Commercial Grade 20A Three Way Switch   |
| I203W   | AH1223  | Industrial Grade 20A Three Way Switch   |

## Single Sided Assemblies with Wiring Devices

Single Sided Assemblies - all catalog numbers contain a single sided bracket (BB4-23 for 3-1/2" and 2-1/2" studs), 4" square box, 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

## Single Sided Assemblies with wiring devices

- All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details. Double sided direct mount assemblies are also available. Substitute PFH3 in the catalog number with PF3DS (BB73 double sided bracket).
- 4" and 6" far side supports are available. Replace PFH3 (for 2-1/2" and 3-1/2" studs) with PFH4 (4") (BB44) or PFH6 (6") (BB46).

### Commonly ordered catalog examples are listed below

• See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application.

Other box types, device colors, mud ring depths, brackets and assembly configurations are available. Consult factory for details.
To change the color of device from ivory (as shown) to white, substitute V (Ivory) with W (White). For ex. PFH3 4D58C20DV becomes PFH3 4D58C20DW.

- All receptacles are shipped standard ground up. Add suffix DN for ground down.
  All assemblies shipped standard with metal device protect plates.
- Pre-installed connectors available on all assembly types. Consult factory for details.

## **Double Sided Assemblies with Wiring Devices**

Double Sided Assemblies - all catalog numbers contain a double sided bracket (BB73-23 for 3-1/2" and 2-1/2" studs), 4" square box, 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

Other box types, device colors, mud ring depths, brackets and assembly configurations are available. Consult factory for details.

To change the color of device from ivory (as shown) to white, substitute V (Ivory) with W (White). For ex. PF16TS 4DAC20DV becomes PF16TS 4DAC20DW. All receptacles are shipped standard ground up. Add suffix DN for ground down.

All assemblies shipped standard with metal device protect plates.

Pre-installed connectors available on all assembly types. Consult factory for details.
Telescoping Slider Bracket Assemblies are shipped with traditional closed back box, ground screw and stranded leads on box and devices.

Device leads and push-in connectors are left inside the box and will not be pulled out of knockouts prior to shipment unless specified by customer.

## Floor Mount Assemblies with Wiring Devices

Floor Mount Assemblies - all catalog numbers contain a floor mount bracket (BBF18) which positions device at 18" on center, 4" square box, 8" insulated solid box ground wire with one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

## Floor Mount assemblies with wiring devices

• All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details.

### Commonly ordered catalog examples are listed below

· See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application

## HomeRunner Boxes

#### **Applications:**

Crouse-Hinds HomeRunner<sup>™</sup> Junction Boxes are designed specifically for commercial construction applications to provide a spacious, flexible junction box for terminating home runs and other electrical wiring. Its patented clamping design and flexibility make it the most convenient labor savings junction box available.

#### Features:

- Designed and approved for use with AC, MC, MCI-A, NM or EMT
- Patented clamping feature eliminates the need for field punching/ drilling of KOs and installation of connectors
- Standard surface or flush cover options eliminates the need for custom covers
- Multiple mounting holes and knockouts for installation flexibility
- Optional stud bracket for direct mounting to steel or wood studs
- Kick stand far side support available with HR080803
- Available in 2 sizes to match customer requirements and preferences
- Third party certified for US and Canada

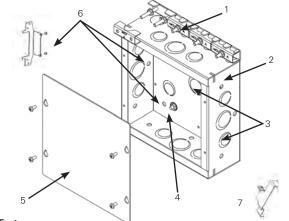

#### **Standard Materials:**

- Enclosure and cover pre-galvanized steel
- Hardware zinc plated steel

#### **Certifications & Compliances:**

- For US and Canada: CSA File #248782
- Certified to UL50 and UL514B and CSA C22.2, No. 18.3-04 and No. 40-M1989

#### **HomeRunner Ordering Information**

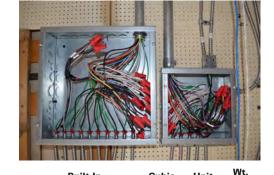

#### Features:

- Patented clamping system provides maximum flexibility and maximum grip. Third party certified for use with AC, MC, MCI-A or non-metallic sheathed cable.
- 2. Welded steel construction provides strong, dependable service and large cubic capacity for ease of wiring.
- 3. **Combination eccentric knockouts** on sides for quick and easy access, combination KOs in the back of the box are ideal for applications where joist spacing is too tight for side entry.
- 4. **Terminal cup washer and flanged nut** quick, easy service ground termination or attachment of grounding bus-bar.
- 5. **2 cover options** square for surface mounted applications or oversized for flush mount applications.
- 6. **Extensive mounting flexibility** pre-drilled holes in side and back for direct mounting or for mounting bracket (purchased separately).
- Far-side support snaps on quickly and easily and is perforated which allows for adjustment in dual thickness, fire-rated walls. Shipped standard with 8" x 8" x 3" models.

#### Dimensions:

- 8" x 8" x 3"
- 12" × 12" × 4"

The most complete turn-key solution for commercial construction projects - the ideal solution for commercial buildings with repetitive installations such as hotels, condominiums, commercial and retail offices, hospitals and apartments

### **PRE-formance Complete delivers:**

- Total pre-fabricated branch wiring system custom produced with Eaton's Crouse-Hinds components, labeled, packaged by room and floor, delivered to your exact location
- Lower total cost of ownership
- Simplified material management, improved material handling and job site safety
- Flexibility to allow skill set allocation to match job requirements
- Elimination of job site material "piles" and inefficient searching for pieces and parts at the job site
- Elimination of job site "engineering"
- Reduction of overages and scrap, including expensive wire and cable
- 30% to 40% labor savings over traditional "stick-build" wiring methods for greatly improved job site efficiency

Hotels, Resorts & Conference Centers

Assisted Living Centers & Medical Facilities

**Educational Facilities** 

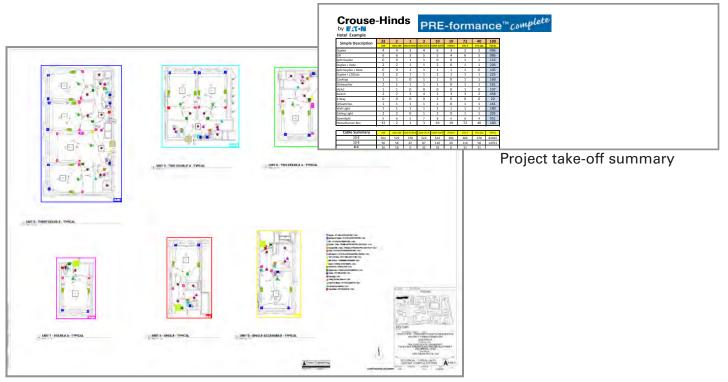

Condominiums

From customized take-off and proposal, through kick-off meetings, mock-ups and status meetings, the focus is on delivering the custom solution that will drive job site productivity and help make your job a better job - faster, easier, safer and more profitable.

### Customized solution using unique/patented products

- Patented Uni-Mount combination mounting and device plate
- HomeRunner 8 x 8 or 12 x 12 box with patented clamping system. Flush or surface mount cover available
- Quick-Lok<sup>™</sup> Pro snap-in fittings listed for use with MC/ AC, FMC or MCI-A
- Customized home runs and labeling provides easy circuit identification during construction and for future maintenance requirements.

## Detailed proposal which includes complete transparency as to what is included and everything needed for project approval submittals

Quotation take-off drawings provided with device highlights and quantity

### Dedicated factory project management and local sales support and expertise

### Customized project management includes:

- Gantt charts
- Secure shared project folders
- Conference calls and site visits

Customized packaging and labeling to simplify job site receiving and handling through job-specific cartons labeled by project floor, unit or area. Ergonomically designed boxes help eliminate the need for special equipment and help reduce material handling risks.

Customized labels and drawings improve job site layout and provide comprehensive point to point connection data for faster installation and elimination of "field engineering".

Project close out meetings to review punch list items (if any) and share lessons learned.

## **PRE-formance** Complete

- Simple, easy to install, UL Listed solution ideal for commercial construction projects and improves job site efficiency
- Modeled by architects and designed by engineers to meet exact project requirements
- Dedicated factory project management and local sales expertise and support
- Product flexibility allows for adjustment on site, if required
- Re-allocates labor, eliminates scrap and material piles, reduces spot buying and consolidates material ordering and receiving
- Helps improve job performance and profitability
- Backed by strength and bankability of Crouse-Hinds and Eaton

## **PRE-formance**

Giving you the convenience of a pre-fabricated product - plus the flexibility to accommodate job site requirements

## **PRE-formance**

# Giving you the convenience of a pre-fabricated product - plus the flexibility to accommodate job site requirements.

Contractors are continually looking for ways to improve job site efficiency and properly align skilled resources to meet tight commercial construction project deadlines. PRE-formance<sup>™</sup> delivers the pre-engineered and pre-assembled combination of mounting method, outlet box, plaster ring, devices and leads to simplify branch wiring installation.

## PRE-formance pre-fabricated products delivers:

- The ideal solution for commercial buildings with repetitive installations such as hotels, condominium, commercial and retail offices, hospitals and apartments
- Lower total cost of ownership
- Improved material handling and job site safety
- Flexibility to allow skill set allocation to match job requirements
- Elimination of job site material "piles" and inefficient searching for pieces and parts at the job site
- Reduction of overages and scrap, including expensive wire and cable
- Direct labor savings over traditional "stick-build" wiring methods for improved job site efficiency

## **PRE-formance**

Flexible prefabricated branch wiring assemblies available in three comprehensive categories to suit customer project requirements.

- Available with the most popular drawn and welded boxes with ground screw and pigtail lead already installed
- Patented Uni-Mount<sup>™</sup> cover combines plaster ring and mounting method
- Standard pre-fabricated assemblies with mounting brackets, boxes, mud rings, ground screw and pigtail leads
- Most popular configurations available from stock

- Cafeteria style selection of Eaton's Crouse-Hinds extensive line of mounting brackets, boxes, plaster rings, wiring devices, and other associated branch wiring accessories
- Assembled-to-order pre-fabricated products for both AC/MC and EMT applications
- Available with:
  - Wiring devices with pigtail leads and push-in connectors
- AC/MC or EMT connectors installed
- Cable whips attached per customer specification
- Assembled from stock components to meet tight job requirements

### 

- The most complete turn-key solution for commercial construction projects. The process begins with your architectural and electrical engineering drawings and delivers a total pre-fabricated branch wiring system: custom produced, labeled, packaged by room and floor, and delivered to your exact location
- The ideal solution for commercial buildings with repetitive installations such as hotels, condominium, commercial and retail offices, hospitals and apartments
- Job-specific customized drawings and labels simplify material handling and speeds installation
- Dedicated project management and engineering expertise through every step of the project
- Innovative PRE-formance products are designed by contractors for contractors and provide ease of wiring and job site flexibility to get the job done right and on-time!
- Includes flexible products designed with pre-fabrication, productivity, safety and job site speed in mind
- Contractors can realize 30 to 40% labor savings over traditional "stick-build" wiring methods for greatly improved job site efficiency

## Boxes with pre-installed ground screw and pigtail

Eaton's Crouse-Hinds boxes with pre-installed ground screw and pigtail provide a simple, readily available way to meet grounding and bonding requirements for metal boxes. Includes the 4" or 4-11/16" square box with ground screw and lead installed\*.

## **Uni-Mount Assemblies**

Eaton's Crouse-Hinds combines the patented Uni-Mount cover (mounting method and mud ring, all in one) to a 4" square box with ground screw and lead installed to simplify ordering, receiving and improve job site speed.

### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-23156

### **Pre-fabricated Box Features:**

 $(U_L)$ 

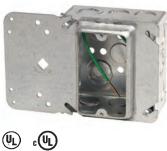

- Uni-Mount provides a secure box support and features a built-in plaster ring
- Can be field assembled with outlet box for power applications or used without a box for low voltage applications
- Pre-fabricated Uni-Mount is available with most popular outlet boxes with a choice of 1/2", 5/8" or 3/4" raised cover and includes ground screw and lead
- · Rigid bracket design eliminates the need for far side support
- Guide tabs ensure alignment on studs

#### **Uni-Mount Features:**

- Uni-Mount combines the features of a mounting device plate with those of a box support, giving you one universal plate for all of your needs. Specifically designed for use with metal or wood studs.
- · New and improved Uni-Mount incorporates four small holes on the left side (support side) of the bracket. These holes allow for the attachment of box mounting brackets to allow for use of both sides of the stud. The holes are strategically located to accept the B-Line BB423 bracket. Additionally, the viewing hole has been significantly enlarged (and is now diamond shaped) to make it even easier to find mark lines on the stud.

Refer to the PRE-formance Catalog Numbering System at the end of this section for additional assembly options and configurations.

### **T-Bar Assemblies**

T-Bar Assemblies - all catalog numbers contain BA50 T-Bar fastener, 4" square or octagon box.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

| Cat. #      | Description - Pre-Fabricated Box, Cover, Ground Screw and Lead Assembly |
|-------------|---|
| PFBH24 4SN  | BA50 Bar hanger, TP404 1-1/2" deep box                                  |
| PFBH24 4DN  | BA50 Bar hanger, TP403 2-1/8" deep box                                  |
| PFBH24 278N | BA50 Bar hanger, TP278 1-1/2" deep octagon box                          |
| PFBH24 292N | BA50 Bar hanger, TP292 2-1/8" deep octagon box                          |

## **PRE-formance Basic Assemblies**

### **Open Bracket Assemblies**

Open Bracket Assemblies - all catalog numbers contain a 16" stud spanning Open Bracket. Each Position may contain a 4" square steel box, mud ring and 8" insulated solid ground wire with ground screw.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

| Cat. #               | Description - Pre-Fabricated Box, Cover, Ground Screw and Lead Assembly   |

### Uni-Mount Assemblies with Wiring Devices

PRE-formance Uni-Mount Assemblies - all catalog numbers contain a patented Uni-Mount cover (TP31000-37000), 4" square back box, an 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

### Uni-Mount assemblies with wiring devices

• All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details.

#### Commonly ordered catalog examples are listed below

• See Uni-Mount assembly catalog numbering system at the end of the Uni-Mount assembly pages for more information on how to construct catalog numbers for almost any customer application.

• Other box types, device colors, mud ring depths, brackets and assembly configurations are available. Consult factory for details.

To change the color of device from ivory (as shown) to white, substitute V (lvory) with W (White). For ex. TP314D C20DV becomes TP314D C20DW.
 All receptacles are shipped standard ground up. Add suffix DN for ground down.

All assemblies shipped standard with metal device protect plates

· Pre-installed connectors available on all assembly types. Consult factory for details.

### Single Sided Assemblies with Wiring Devices

Single Sided Assemblies - all catalog numbers contain a single sided bracket (BB4-23 for 3-1/2" and 2-1/2" studs), 4" square box, 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

#### Single Sided Assemblies with wiring devices

- All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details. Double sided direct mount assemblies are also available. Substitute PFH3 in the catalog number with PF3DS (BB73 double sided bracket).
- 4" and 6" far side supports are available. Replace PFH3 (for 2-1/2" and 3-1/2" studs) with PFH4 (4") (BB44) or PFH6 (6") (BB46).

#### Commonly ordered catalog examples are listed below

• See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application.

### Single Sided Assemblies with Wiring Devices

Single Sided Assemblies - all catalog numbers contain a single sided bracket (BB4-23 for 3-1/2" and 2-1/2" studs), 4" square box, 8" insulated solid box ground wire, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

#### Commonly ordered catalog examples are listed below

See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application.

### **Telescoping Slider Assemblies with Wiring Devices**

Telescoping Slider Assemblies - all catalog numbers contain a Telescoping Slider Bracket (BB216TS 11"-18"), 4" square traditional closed back box, 8" insulated stranded box ground wire with ground screw, one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors, and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

#### Commonly ordered catalog examples are listed below

See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application.

Other box types, device colors, mud ring depths, brackets and assembly configurations are available. Consult factory for details.

To change the color of device from ivory (as shown) to white, substitute V (Ivory) with W (White). For ex. PF16TS 4DAC20DV becomes PF16TS 4DAC20DW. All receptacles are shipped standard ground up. Add suffix DN for ground down.

All assemblies shipped standard with metal device protect plates.

Pre-installed connectors available on all assembly types. Consult factory for details.
Telescoping Slider Bracket Assemblies are shipped with traditional closed back box, ground screw and stranded leads on box and devices.

Device leads and push-in connectors are left inside the box and will not be pulled out of knockouts prior to shipment unless specified by customer.

### Floor Mount Assemblies with Wiring Devices

Floor Mount Assemblies - all catalog numbers contain a floor mount bracket (BBF18) which positions device at 18" on center, 4" square box, 8" insulated solid box ground wire with one or two pre-wired Eaton's Wiring Devices with leads, push-in connectors and device protect plates.

#### **Certifications & Compliances:**

- UL Listed and cUL Listed
- UL File No. E-324733

#### Floor Mount assemblies with wiring devices

• All assemblies are shown with ivory colored devices. At the end of the catalog number, replace the "V" with "W" for white colored device. Other device colors and types are available. Consult factory for details.

#### Commonly ordered catalog examples are listed below

· See assembly catalog numbering system at the end of this section for more information on how to construct catalog numbers for almost any customer application

## HomeRunner Boxes

#### **Applications:**

Crouse-Hinds HomeRunner<sup>™</sup> Junction Boxes are designed specifically for commercial construction applications to provide a spacious, flexible junction box for terminating home runs and other electrical wiring. Its patented clamping design and flexibility make it the most convenient labor savings junction box available.

#### Features:

- Designed and approved for use with AC, MC, MCI-A, NM or EMT
- Patented clamping feature eliminates the need for field punching/ drilling of KOs and installation of connectors
- Standard surface or flush cover options eliminates the need for custom covers
- Multiple mounting holes and knockouts for installation flexibility
- Optional stud bracket for direct mounting to steel or wood studs
- Kick stand far side support available with HR080803
- Available in 2 sizes to match customer requirements and preferences
- Third party certified for US and Canada

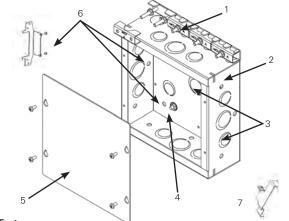

#### **Standard Materials:**

- Enclosure and cover pre-galvanized steel
- Hardware zinc plated steel

#### **Certifications & Compliances:**

- For US and Canada: CSA File #248782
- Certified to UL50 and UL514B and CSA C22.2, No. 18.3-04 and No. 40-M1989

#### **HomeRunner Ordering Information**

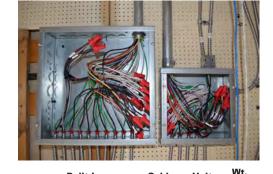

#### Features:

- Patented clamping system provides maximum flexibility and maximum grip. Third party certified for use with AC, MC, MCI-A or non-metallic sheathed cable.
- 2. Welded steel construction provides strong, dependable service and large cubic capacity for ease of wiring.
- 3. **Combination eccentric knockouts** on sides for quick and easy access, combination KOs in the back of the box are ideal for applications where joist spacing is too tight for side entry.
- 4. **Terminal cup washer and flanged nut** quick, easy service ground termination or attachment of grounding bus-bar.
- 5. **2 cover options** square for surface mounted applications or oversized for flush mount applications.
- 6. **Extensive mounting flexibility** pre-drilled holes in side and back for direct mounting or for mounting bracket (purchased separately).
- Far-side support snaps on quickly and easily and is perforated which allows for adjustment in dual thickness, fire-rated walls. Shipped standard with 8" x 8" x 3" models.

#### Dimensions:

- 8" x 8" x 3"
- 12" × 12" × 4"

The most complete turn-key solution for commercial construction projects - the ideal solution for commercial buildings with repetitive installations such as hotels, condominiums, commercial and retail offices, hospitals and apartments

#### **PRE-formance Complete delivers:**

- Total pre-fabricated branch wiring system custom produced with Eaton's Crouse-Hinds components, labeled, packaged by room and floor, delivered to your exact location
- Lower total cost of ownership
- Simplified material management, improved material handling and job site safety
- · Flexibility to allow skill set allocation to match job requirements
- Elimination of job site material "piles" and inefficient searching for pieces and parts at the job site
- Elimination of job site "engineering"
- Reduction of overages and scrap, including expensive wire and cable
- 30% to 40% labor savings over traditional "stick-build" wiring methods for greatly improved job site efficiency

Hotels, Resorts & Conference Centers

Assisted Living Centers & Medical Facilities

**Educational Facilities** 

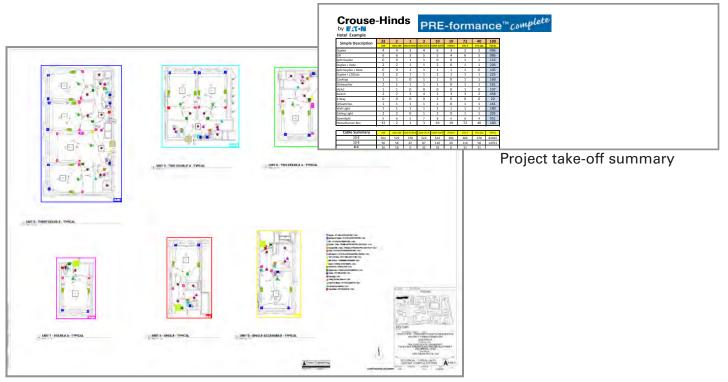

Condominiums

From customized take-off and proposal, through kick-off meetings, mock-ups and status meetings, the focus is on delivering the custom solution that will drive job site productivity and help make your job a better job - faster, easier, safer and more profitable.

#### Customized solution using unique/patented products

- Patented Uni-Mount combination mounting and device plate
- HomeRunner 8 x 8 or 12 x 12 box with patented clamping system. Flush or surface mount cover available
- Quick-Lok<sup>™</sup> Pro snap-in fittings listed for use with MC/ AC, FMC or MCI-A
- Customized home runs and labeling provides easy circuit identification during construction and for future maintenance requirements.

### Detailed proposal which includes complete transparency as to what is included and everything needed for project approval submittals

Quotation take-off drawings provided with device highlights and quantity

#### Dedicated factory project management and local sales support and expertise

#### Customized project management includes:

- Gantt charts
- Secure shared project folders
- Conference calls and site visits

Customized packaging and labeling to simplify job site receiving and handling through job-specific cartons labeled by project floor, unit or area. Ergonomically designed boxes help eliminate the need for special equipment and help reduce material handling risks.

Customized labels and drawings improve job site layout and provide comprehensive point to point connection data for faster installation and elimination of "field engineering".

Project close out meetings to review punch list items (if any) and share lessons learned.

## **PRE-formance** Complete

- Simple, easy to install, UL Listed solution ideal for commercial construction projects and improves job site efficiency
- Modeled by architects and designed by engineers to meet exact project requirements
- Dedicated factory project management and local sales expertise and support
- Product flexibility allows for adjustment on site, if required
- Re-allocates labor, eliminates scrap and material piles, reduces spot buying and consolidates material ordering and receiving
- Helps improve job performance and profitability
- Backed by strength and bankability of Crouse-Hinds and Eaton
