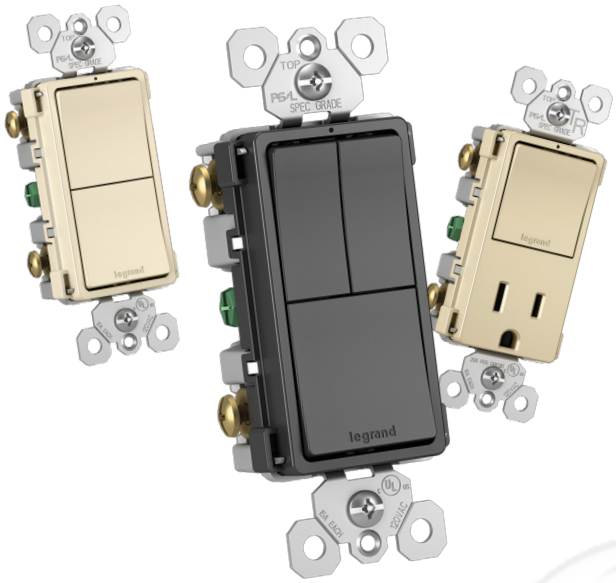
**PASS & SEYMOUR®**

# radiant® Combination Devices 15A, 120/125VAC



## Greater lighting control in a single, space-saving device.

RCD11, RCD113, RCD33, RCD38TR

Aesthetically improved yet reliable as ever, these combination switches give end users greater lighting control by combining multiple functions in a one-gang configuration. Transform any of these devices into an illuminated switch in seconds with our Snap-In Light Module (RCDLM, sold separately). These combination switches are ideal for residential, multi-dwelling, commercial office and hospitality applications, and as part of the radiant® collection, now offer a better fit, form and finish.

## Features & Benefits

**Full wraparound metal strap,** commercial grade with lock-in tabs.

**All screws are tri-drive.**

**External screw-pressure-plate back and side wired.** Accepts #14 - #10 AWG.

**Snap-In Light Module** (sold separately) White LED locator light glows when device is off for easy location in the dark.

**Unique "Up/Down" switches** match the look and feel of standard paddle switches.

**Easy-to-use oversized main switch** for primary load.

**Impact-resistant face and body.**

**RCD113W**

- Part of the radiant® collection
- Patented shutter system—now with black "invisi-shutters" for an invisible effect preferred by end users—helps prevent improper insertion of foreign objects (RCD38TR only).
- Single Pole/3-Way Switches can be wired as a single pole or 3-way switch.
- Patented split-circuit tab – easily accessible and can be reinstalled without a tool.

**Snap-In Light Module:**

- Lights when OFF.
- Uses energy-efficient LED light.
- LED light will not generate heat and will last, on average, 47 years.

.

## 3rd Party Compliance
