Bolt Template

NEW

Select a hole saw that measures about 1/8" larger than the bolt to be used and drill the template at the selected easy centering divot mark.

Barracuda Fishtape

A revolution in fishtape design. The first fishtape with an integrated pulling system that works! No more pliers, no more tripping over the case while you pull, no more kinks in your tape from pulling at awkward angles.

- Integrated Cam-Lock™ handle grabs onto the tape and pulls.
- The harder you pull, the tighter the cams grip.
- Let go of the handle and the cams release, allowing you to wind up the slack as you go.
- Available with carbon steel or stainless steel wire.
- Winds and unwinds like a standard fishtape.
