extra long description	CRS-H EDS218 EDS FS GENERAL USE SNA
Features	New EDSX series available with NEMA 4X protection for Class I,
	Division 2 hazardous areas. EDS/EDSX and EFD snap switches are
	used with magnetic starters or contactors for control of motors.
	Snap switch control stations are factory sealed to prevent arcing
	of the enclosed device from causing ignition of a hazardous
	atmosphere external to the enclosure. Factory sealing eliminates
	the need for external seals, simplifying installation and reducing material and labor costs.
