Kindorf® and Superstrut® square washers

Kindorf® and Superstrut® square washers

Located version stays in place for tightening to speed installation

Square washers are designed for use with Superstrut 1½" and Kindorf 1½" metal framing channels.

No more fumbling with washers that won't stay in place while you tighten the bolt. ABB's line of square washers in the AB241L series features locators that extend down into the strut to keep the washer securely in place for bolt tightening. In addition, the AB241 non-located series has been redesigned to custom fit both 1½" and 1⅝" channels.

- AB241L series locators extend down into strut to keep washer seated in place during tightening
- Standard AB241 series redesigned for custom fit on both Kindorf and Superstrut channel
- All versions fit both 1½" Kindorf and 1⅝" Superstrut channels
- All versions available in GoldGalv®, SilverGalv®, hot-dip galvanized, type 304 and type 316 stainless steel

AB241L series located square washers

Cat no.	Bolt size (in.)	Finish	Std. pkg. qty.	UPC no.
AB241L 1/4	¼	GoldGalv	100	16013-11560
AB241L 1/4EG	¼	SilverGalv	100	16013-11565
AB241L 5/16	⅝	GoldGalv	100	16013-11561
AB241L 5/16EG	⅝	SilverGalv	100	16013-11566
AB241L 3/8	⅜	GoldGalv	100	16013-11562
