Your Material

Will Call Curbside Service lets you pick up and pay for will call tickets without getting out of your vehicle. We've designed our pickup service to be **fast** and **convenient**. How it works: let us know when you are on your way, and we'll **meet you at your vehicle with your material ready** when you arrive.

Our app's new "Pick Up Orders" option (under Orders > Will Call) lets you handle every step of curbside pickup.

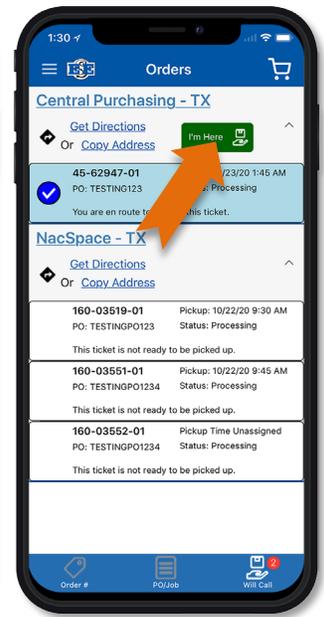

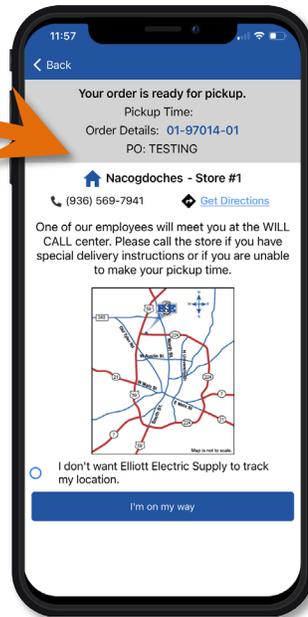

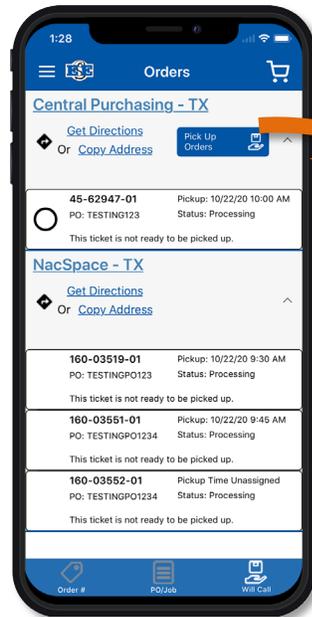

1 **Select tickets** to pick up.

2 Tell us when you're **on your way**.

3 Tap **"I'm Here"** when you arrive.

4 **Sign and pay** for your order. (If you use a PIN, use the app to enter it)

5 We **load your material** for you!

Will Call tickets can also be scheduled on www.elliottelectric.com or by talking with a **salesperson**.

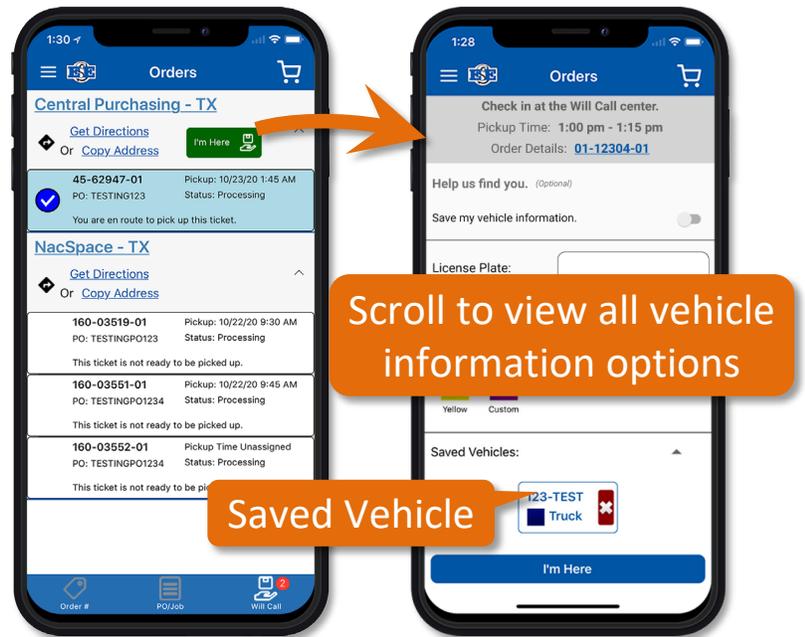

Get the EES Customer App:

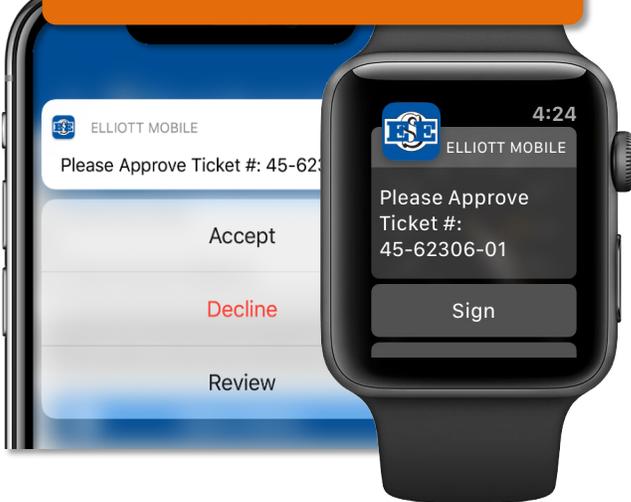

When you are close to the store, your GPS location will send a notification to employees so they can verify your ticket and have it **ready before you reach the store**. *The Customer App requires access to your Location (GPS) in order for the employees to be notified.* When you arrive and tap “I’m Here” in the Customer App, you can provide information about your vehicle to help our employees identify you.

Our employees can meet you in the parking lot as you are arriving if you use all the **notifications capabilities** of the Customer App. If you have provided **vehicle identification information**, it will be displayed for them on their tablet.

Customer Device Notifications

After we reach your vehicle, you and our salesperson can use your respective mobile devices to complete the transaction. If you require a signature or PIN you will receive a request in the form of a **push notification** from the Customer App on your smartphone or smartwatch.
