Commander® LED Rotating Warning Lights

Model 371LED

HEAVY DUTY WARNING LIGHTS

- Available in 120VAC

- 371LED is available in five dome colors

- 50,000 hour LED light source

- Surface mount and integrated 1-inch NPT pipe mount

- Type 4X, IP66 enclosure

- UL and cUL Listed

Federal Signal Model 371LED warning lights have an array of 12 powerful LEDs arranged below a reflector. The reflector focuses the light from the LEDs into a high intensity beam and rotates 360 degrees.

The LEDs, reflector, and motor module are sealed under a polycarbonate dome which completes a water-tight, dust-tight enclosure.

Model 371LED is available in five colors: Amber, Blue, Clear, Green and Red. The dome and ring assembly simply screws on, providing access to the interior of the light.

The new 371LED base features electrostatically applied black powder paint for greater corrosion resistance. Wiring can be routed through the pipe-mount opening in the bottom of the light or the two side knockouts can be used for side entry wiring. Installation can be surface or 1-inch NPT pipe mount. An optional 22.5º reflector alternative for ceiling mounted applications. Optional wall and corner mount brackets are available.
The 371LED is Type 4X, IP66 rated, UL and cUL Listed.
