Uses, Certifications, and Standards

Application

Set Screw type transitional fitting ideal for commercial and institutional facilities. The 4157-DC is used to securely join EMT to two armored or metal clad cables and 3/8" flexible metal conduit. New and Improved: Now features a tapered body and a rivet to separate cables during installation. A labor savings, compared to the traditional junction box or fitting assembly installation. When using AC/MC/FMC cable simply remove the armor and expose the conductors to the desired length needed to reach the devi
