extra long description	ETN C30CNE20A0 30A Open Elec Held 2
Features	The C30CN 30A mechanically held lighting contactors are
	designed for industrial, commercial and outdoor lighting
	applications where efficient control is required. The mechanically
	held operation ensures that the contactor will not switch to OFF
	during control power failure. It also ensures the removal of coil
	from the circuit for noise-free operation and the elimination of
	all coil losses after the contactor is latched. The control module
	microprocessor validates the control signal before operation, so it
