CPX LED Panel

CPX raises the bar for what a standard panel from Lithonia Lighting® offers. CPX is the solution for a high-quality LED fixture with a competitive price in the marketplace. CPX has been designed with contractors in mind for an easy install, with simple controls and is available in static, or switchable technology. And for those that are looking to tie activities to a circadian rhythm, CPX is also available in Tunable White.

CS
CONTRACTOR
SELECT

Contractor Select™ options for the most popular and readily available configurations

JOT
JUST ONE TOUCH

Simple lighting controls through SensorSwitch™ JOT, a wireless, app-free solution for single room control

nLIGHT

**nLight®** wired or wireless lighting controls with embedded sensors are now available in our CPX fully switchable panel.

LUMENS   3CCT SWITCHABLE

Switchable technology in select configurations allows for multiple lumen packages and color temperatures in a single CPX panel
Tunable White nTune™ is an all digital light color temperature control within an nLight® enabled luminaire.

Lighting Controls and Switchable Technology

SensorSwitch™ JOT Single Room

The SensorSwitch JOT enabled solution provides a wireless, app-free approach to single room lighting control. Absolutely no 0-10V control wires and no mobile apps are needed to install and pair JOT enabled products, allowing for lightning speed installation right out of the box.

Available Switchable Color Temperature & Adjustable Lumens

CPX offers 3 switchable configurations (2'x2', 2'x4', 1'x4') each with adjustable light output (ALO) for three lumen packages in one panel and switchable white (SWW) for three color temperatures in one panel.

✔ Distributors stock less SKU's and offer more configurations standard.

✔ Contractors have a 9x better chance they have what the customer needs and can make game time decisions on jobsite.

✔ Industry-leading LPW and standard high lumen outputs within the ALO/SWW configurations.

ALO/SWW

The nLight® platform of products enables ease in specification, installation, and ownership, making it the go-to digital lighting controls platform for specifiers, contractors, and building owners.

nLight embedded fixtures offer:	Customers get:
Manual Dimming	Convenience and visual comfort for occupants
Motion Sensing and/or Daylight Harvesting	Energy savings and code compliance
Fixture or Group Level Control	Ability to configure lighting to the space requirements
Flexibility	Ease of fixture moves, adds and changes
Wireless Wall Switch (nLight AIR only)	Ease and flexibility of placement
Astronomical and Time of Day Scheduling	Energy savings and building security
Scalable Solution	nLight controls to grow with your business
Future-Ready	nLight platform to set foundation for future upgrades and capabilities
