Description	30A/3P HD NF DOUBLE THROW SWITCH 600V NEMA 3R
extra long description	ETN DT361URK 30A/3P HD NF DT Sw 600
Features	Eaton's double-throw safety switches include two interlocked
	switches with a common connection used to transfer service
	from a normal power source to an alternate source, or to switcl
	from one load circuit to another. The interlock ensures both
	switches cannot be closed at the same time, preventing them
	from being operated in parallel. Additionally, double-throw
	safety switches are available in general duty and heavy duty as
	well as quick-connect options.
