| Features               | Eaton's E50 modular plug-in limit switches are the industry standard with versatility of design and high reliability for low maintenance, installation and inventory costs. Standard Viton gaskets, seals and boots and a zinc die -cast enclosure provide exceptional chemical resistance to the common coolants, cleansing agents and hydraulic fluids found in machine tool, automotive, wastewater treatment and other heavy-duty industrial applications. Mounting dimensions accommodate both U.S. and DIN standards for |
| Long Description       | Limit Switch Operator, E50, Accessory, Standard roller, 1.50 in-oz min. return, Used with side rotary, Metal                                                                                                                                                                                                                                                                                                                                                                                                                   |
