# EASY-STACK™

CABLE STACKER

Easy-Stack™ Cable Stacker is easy to load and can be installed quickly for a variety of applications, increasing productivity. Cables are self-securing and snap in place no matter what angle the fixture is mounted – even upside down. Designed to handle wires or cables up to 7/16" in diameter, it has the durability and strength to be installed and re-installed to accommodate change orders.

Increase Your Productivity

Versatile and easy to use, Easy-Stack Cable Stacker is the perfect solution for a variety of applications. Install with a nail, staple or screw into wood or metal studs.
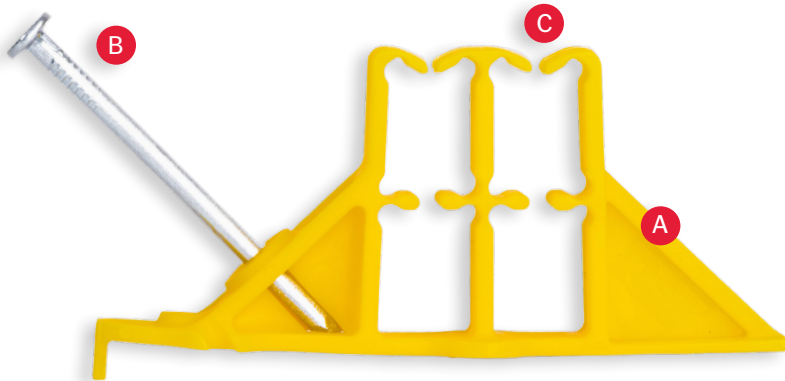

WOOD

METAL

EASY-STACK™
CABLE STACKER

A — Strong enough to be installed and re-installed as needed.

B — Can be installed with a nail, staple or screw (included) for application into wood or metal studs.
