

Pow-R-Xpress stocking program

Excelling with light commercial products through distributor stock

What is Eaton's Pow-R-Xpress program?

Eaton's Pow-R-Xpress program is a stocking program focused on supporting light commercial projects and small jobs to help you differentiate yourself from the competition—have a competitive advantage, provide superior customer service and drive productivity.

It is a partnership between you (the contractor), your Pow-R-Xpress distributor and Eaton to help you be more effective and efficient when doing small light commercial jobs. The Pow-R-Xpress program allows you to respond to quick turn-around installations and be partnered with distributor technical and application experts.

Eaton's Pow-R-Xpress program includes the following products, from distributor's stock:

- Panelboards, unassembled (interiors, mains, boxes and trims) for PRL1X and PRL2X panelboards
- Branch feeder breakers (bolt-on BAB/QBHW/GHQ/GHB) for PRL1X and PRL2X panelboards
- Dry-type distribution transformers
- Safety switches
- Three-phase loadcenters
- Enclosed controls
- Power panelboards from satellite plants

Enhanced satellite support:

- Power panelboards for light commercial jobs in two weeks from local satellite plant
- Fully assembled power panelboards
- Eligible for light commercial small jobs only
- Standard power panelboards
- Remaining lighting panelboards, safety switches and transformers to be supplied from distributor stock

You will be able to:

- Respond to quick-turn opportunities
- Get fast access to a distributor inventory of products, so you (the contractor) have what's needed at the job site
 - Specification changes, corrections
 - Last-minute requests to complete the job
- Partner with distributor experts who are trained on the products and applications
- Access configurators and tools to select the right product for the job
- Connect with manufacturer experts, operations, etc.
- Get proper assembly matching with color-coordinated labels
