

DESCRIPTION

Ideal for task, accent, office, cove, utility and display lighting, the Halo HU20 Undercabinet delivers a low-profile design with easy installation. Track mounted driver is equipped with sensitive touch Hi-Med-Low-Off switch. Track sections are available in 12", 18", or 24" lengths and can be field cut to fit almost anywhere. The connector cable makes it easy to link one unit to another and one driver can drive up to 7 pucks.

SPECIFICATION FEATURES

Flexible In Design

Patented magnetic connector technology provides for unmatched lighting effect flexibility before and after installation. Each luminaire is connected to the low voltage track system with magnetic contact that allows you to locate and relocate them anywhere along the track surface at any time. Adapt the lighting design to a change in environment or simply take advantage of easy installation.

Low Profile System

Low profile track system and luminaires have less than 3/4" overall height with the driver coming in under 1".

Pucks

Pucks are attached magnetically to the track. Each puck has a frosted lens and contains LEDs that provide a uniform source with high efficiency and no pixilation. Available in 90 CRI minimum, R9 greater than 50 and color accuracy within 3 SDCM provide color accuracy and uniformity.

Track

Each section of track features two magnetic contacts for the pucks, connector and driver to attach. There is no polarity to the track, so each component can be attached to the track regardless of orientation or direction. The track can be field cut to the desired length for maximum versatility.

Mounting

Each track section can be secured horizontally directly to the mounting surface with screws at the counter sunk screw locations. No separate mounting clip required.

Connector

Connect two lengths of track together with the 6" magnetic linking cord.

Life

Halo HU20 Undercabinet system is expected to yield 70% lumen maintenance after 50,000 hours of operation.

Adjustable Light Levels

Driver features a high-medium-low-off switch using sensitive touch adjustable light levels.

Warranty

Five-year limited warranty, consult website for details.
www.eaton.com/lighting/Legal

Driver

The driver connects directly to the track and can be used with up to 7 pucks. Each driver is controlled using sensitive touch directly on the HALO logo. It provides flicker free operation and is for use only with 120V.

Compliance

ETL listed / certified EMI/RFI emissions per FCC 47CFR Part 18 consumer limits. Contains no mercury or lead and RoHS compliant. Photometric testing in accordance with IES LM-79-08. Lumen maintenance projections in accordance with IES LM-80-08 and TM-21-11. ENERGY STAR® listed, reference database for current listings.

Operating Conditions

Damp location listed and for indoor use only.
