Intercom Options:

NuTone® products should not be installed on outside walls unless they are specifically designed for outside use.

NuTone® Intercom Wire is an integral part of all NuTone® Radio Intercom Systems; such wire has been designed to enable full system performance and to minimize outside interference, dimmer noise, radio frequency interference and other reception problems. If wire other than NuTone® specified wire is used in the installation of a NuTone® Radio Intercom, the Warranty shall not be applicable to any defect or problem relating to the use of non-NuTone® specified wire.

Installation Wire: NuTone® 3-twisted-pair/6-wire cable: 200 ft. (IW-6-200), 1000 ft. (IW-6-1000), NuTone® twisted-pair 22/2 cable: 100 ft. (IW-2-100), 500 ft. (IW-2-500), twisted-pair 18/2: (S-143-500). For installations where UL listed wire is specified, add 'UL' suffix to model number when ordering.

IMA-4406 'Master' station powered by (2) 18 volt, 72 VA transformers NuTone® model 801T supplied with the IR-105 rough-in.

*ISA-419AB, ISA-419PB and ISA-419WH use model IR-50 rough-in for non-masonry installation or model IR-55 rough-in when mounting to stucco or brick.
