**Klein’s Journeyman™ Pump Pliers…Get a Hold on Comfort and Durability**

Introducing Klein’s new Journeyman pump pliers, designed with a difference you can see and feel every time you use the tool. Six machined tongue and grooves provide smooth jaw adjustments up to a maximum of 1-3/4” (44 mm), robust teeth for sure-gripping action, induction hardened jaws for long life and a tension-loaded joint that reduces handle wobble. Also, the state-of-the-art handles are made from a dual material molding that allows for a softer, more comfortable grip on the outer surface and a harder, more durable grip on the inner surface and handle ends.

See and feel the difference of a Klein Journeyman, and you will know why “professionals are known by the tools they own™.”

---

**Features**

- **Induction hardened jaws** for long life.
- **Robust teeth** for sure-gripping action.
- **Six machined tongue and grooves** for smooth adjustments.
- **Soft material on outer surface** for comfort and a firm grip.
- **Color-coded yellow handles** allow quick identification of tool.
- **State-of-the-art dual material molding process.**
- **Tension-loaded joint** to reduce handle wobble for sure gripping.
- **Contoured thumb area** for additional comfort and positive feel.
- **Hard, black material** for toughness and durability.
- **WARNINGS:**
  - Always wear approved eye protection.
  - NOT insulated. Plastic-dipped or slip-on plastic handles are NOT intended for protection against electrical shock.
