Calbrite™
Stainless Steel Conduit Systems

Stainless Steel In-Use Covers

Features:

- Manufactured in type 316 stainless steel for increased corrosion resistance
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Mounts to all Calbrite stainless steel device boxes
- Lockable cover is ideal for outdoor wiring and high-traffic areas that require durability as well as safety precautions
- Available in Single and Double Gang configurations
- Multi-die neoprene gasket included
- Approved for use in damp environments

Certifications and Compliances:

NEMA 4X approved
NEMA 3R approved for wash-down applications
Fabricated to UL 514A Standards
Manufactured in the United States

Applications:

The stainless steel weatherproof box is available in shallow lid models (S60000FVCS & S60000FV2S), and a deep lid model (S60000FVCD). All versions are specially designed for use with duplex switch, blank, toggle and GFCI requirements. The covers must be mounted vertically, and in accordance with all local NEC/AHJ requirements.

Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Marine & Coastal Facilities
- Pulp and Paper Mills
- Along with other corrosive environments

Part Number	Style	Gang	Overall Length	Overall Width	Overall Depth	Cover Depth	Box Depth	Weight (ea) per lb.
S60000FVCS	Shallow	Single	6.000”	3.200”	3.500”	2.000”	1.900”	2.65
S60000FVCD	Deep	Single	6.000”	3.200”	5.500”	5.000”	1.900”	3.67
S60000FV2S	Shallow	Double	6.250”	5.100”	3.500”	2.000”	2.000”	3.70
