Calbrite™
Stainless Steel Conduit Systems

Stainless Steel One Hole Straps

Features:

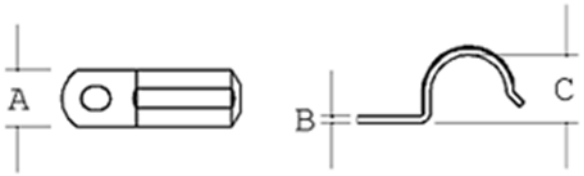
- Manufactured in type 316 stainless steel to meet any stringent sanitary condition
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Designed for use with stainless rigid, stainless IMC, galvanized, & aluminum conduit
- No package qty. required

Certifications and Compliances:

Calbrite stainless steel One Hole Straps are fabricated to UL standards. Manufactured in the United States.

Applications:

Heavy duty type 316 stainless steel one-hole mount straps are great for securing and mounting conduit, tubing, & cable in corrosive environments.



Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Marine & Coastal Facilities
- Pulp and Paper Mills
- Along with other corrosive environments

Size	Part Number	A	B	C	Bolt Hole Size	Weight (ea) per lb.
½”	S605001S00	0.750”	0.060”	0.840"	1/4”	0.03
¾”	S607001S00	0.750”	0.080”	1.050”	1/4”	0.05
