

Tmax
Molded case circuit breakers

## Introduction

$A B B$ is once again demonstrating its commitment to new product development and its superiority in product technology. Never before has the industry seen such high performance, versatility and standardization in a range of molded case circuit breakers.
The ABB Tmax line of circuit breakers, with a range up to 3000 A , has several key features that go along with its very small size:

- Double insulation - this construction characteristic allows for the UL Listed field installation of internal accessories without exposure to energized parts.
- Complete range of electrical and mechanical accessories
- Positive operation - breakers from ABB ensure that the toggle indicates the precise position of the moving contacts. This guarantees safe and reliable signaling by the device.
- Installation - Tmax molded case circuit breakers can be installed in panels and switchboards in either the horizontal or vertical planes while being fed from either end without any derating of their performance characteristics.
- Interrupting ratings at 480VAC up to 150kAIC.
- Compact size
- All Tmax molded case circuit breakers are UL Listed and IEC rated for global application and acceptance.
- All versions of the Tmax family are suitable for reverse feed applications.

The ABB Tmax product line has the performance and accessories to satisfy all industry requirements in the 600VAC to 600VDC ranges.
Frame sizes - Nine basic sizes
The ABB Tmax series includes nine basic frame sizes as well as the T1 single pole with the range rated from 15A to 3000A at 480VAC. The various versions carry the following interrupting capacities:

- B Basic breaking capacity
- N Normal breaking capacity
- S Standard breaking capacity
- H High breaking capacity
- L Extra high breaking capacity
- V Very high breaking capacity

## Derived versions

- Thermal magnetic
- Electronic
- Molded case switches
- Motor circuit protectors (MCPs)
- Direct current (DC) rated

## ABB Tmax versions

- Fixed: all models
- Drawout or plug-in: T2, T3, Ts3, T4, T5, T6, T7 \& T7M
- UL File \#E93565 (breakers and MCPs) \#E116596 (Accessories) \#E116595 (Molded case switches)

## General information

## Catalog number explanation

Dimensions 3 3P Fixed Version $5.12 \mathrm{H} \times 3.00 \mathrm{~W} \times 2.76 \mathrm{D}$
Weight $\quad 2.34$ (lbs)

## General

The T1 breaker family ranges from 15 through 100 amperes. The T1 trip units are non-interchangeable and use the very latest technology in electromagnetic relays for overcurrent trip protection. Thermal overload protection is provided by heat sensitive bimetals. Short circuit protection for the breaker is accomplished using a precise magnetic coil. State of the art construction in contacts and arcing chambers aid in limiting damaging fault currents through the protected circuits.

## Standards

The UL489/CSA 22.2 version of T1 also carries an IEC-60947-2 rating.

## Versions

The T1 frame is available in two versions:
T = Thermal-magnetic, fixed
D = Molded case switch

## Performance levels

The T1 breaker has two performance levels available:
$B=$ Basic single pole
$\mathrm{N}=$ Normal three pole

## Number of poles

The T1 molded case circuit breaker is available in single, three and four pole versions. Estimate 4 pole pricing by adding $35 \%$ to the 3 pole price and contact your ABB sales person for details.

UL489 / CSA C22.2 Interrupting capacity (kA RMS)

| Voltage | Continuous rating | B (1 pole) | N |
| :---: | :---: | :---: | :---: |
| 240VAC | 15-100A | - | 50 (1) |
| 347 VAC | $\begin{gathered} 15 A \\ 20-100 A \end{gathered}$ | $\begin{aligned} & 10 \\ & 14 \end{aligned}$ | - |
| 480VAC $\triangle$ | $\begin{gathered} 15 A^{(2} \\ 20-100 \mathrm{~A} \end{gathered}$ | - | $\begin{aligned} & 14 \\ & 22 \end{aligned}$ |
| 600Y/347VAC | 15-100A | - | 10 |
| 250VDC 2 pole series | 15-100A | - | 25 |
| 500 VDC 3 pole series | 15-100A | - | 25 |

IEC 60947-2 Interrupting capacity (kA RMS)

| Voltage | Continuous rating | B (1 pole) | N |
| :---: | :---: | :---: | :---: |
| 230VAC | 15-100A | 25 (3) | 50 |
| 415VAC | 15-100A | - | 36 |
| 690VAC | 15-100A | - | 6 |
| 500 VDC 3 pole series | 15-100A | - | 36 |

Molded case switches
UL489 switches include no overcurrent protection except for a high instantaneous trip mechanism for self protection.
