

8 x 10 TV BOX™

Made in USA 

Installation Versatility • Perfect for Home Theater Installations

**Lots of space inside for multiple low voltage connections...
Brackets for a neater installation**

Arlington's TVBU810 TV Box™ delivers the ultimate in versatility for installing wall-mounted TVs in new work or retrofit projects. There's more room in the box for wires. And, you can install it horizontally or vertically to ensure proper positioning of low voltage connections behind the TV.

Available with a non-metallic or steel box, TVBU810 is ideal for home theater systems where multiple connections are needed for sound systems, satellite TV, cable TV, DVRs, and more.

- Accepts standard-style plates with receptacles and decorator-style devices with plates and Arlington's SCOOP™ series entrance plates and hoods
- In **new work** box mounts to a stud; in **retrofit** mounting wing screws hold box secure in the wall
- 1-1/2" knockout for ENT or other low voltage wiring
- Optional cover available for unused boxes
- cULus Listed

TVBU810
(ENT installed in 1-1/2" knockout)

Mounts to stud in NEW work

In RETROFIT mounting wing screws hold box secure in wall

8 x 10 TV BOX™

NEW!

Made in USA 

Install Vertically or Horizontally in New Work or Retrofit

Easy installation in **New Work...**

Mount box to stud, using tabs for proper positioning.

Positioning tabs are set for 1/2" or 5/8" drywall.

Attach trim plate with screws provided.

Tighten mounting wing screws to pull box securely against the wall.

...or **Retrofit**

Determine placement of box. Cut opening in drywall.

Install trim plate on box. Pull wire. Insert assembly into opening.

Pull cable. Tighten mounting wing screws to pull box securely against wall.

Close-up: Mounting wing screws
