| Features               | Crouse-Hinds series explosionproof unions are installed in rigid/IMC conduit systems to connect conduit to conduit, a conduit fitting, junction box or device enclosure. Expansion unions are also available, which allow for expansion and contraction of conduit and compensate for conduit cut too short. Available in a variety of materials, including stainless steel, to suit customer preferences. Explosionproof elbows allow for a 90° change in direction to the conduit run, or when terminating at a box or fit |
| Long Description       | Eaton Crouse-Hinds series UNF expansion union, Rigid/IMC, Female, Steel, 1", Short                                                                                                                                                                                                                                                                                                                                                                                                                                           |
