The Cooper Wiring Devices Difference

- 1 Extra durability Heavy Duty Grade models available for high abuse areas
- 2 Screw-Catch™ feature on traditional duplex devices automatically holds the wallplate mounting screw in place
- 3 Built-in wire looper to speed termination of both #14 and #12 AWG wire
- 4 Slotted, Phillips and Robertson Tri-Combo screw heads offer greater installation flexibility
- 5 Tamper Resistant versions provide compliance with 2011 NEC® section 406.12 and provide significantly improved protection over traditional receptacles with removable plastic safety caps

Specific Receptacle Solutions for Today's Needs

Child Safety

Tamper Resistant receptacles not only provide code compliance, they also deliver automatic, continual protection from electrical injury as a result of inserting foreign objects.

TR270

See
page:
B-22

Home Entertainment Devices

Today's flat-screen televisions mount closely to the wall, requiring recessed receptacles to permit tight mounting clearances and leave more room for cord control.

Aluminum Wiring

There are many homes that still contain aluminum wiring. Using hybrid copper & aluminum compatible (CO/ALR) receptacles can reduce the hazards of aluminum wiring.
